Glauber Reis

Software Engineer (Ruby/Elixir)
São Paulo, São Paulo, Brasil

Resumo

I am Ruby(w/ Rails) developer with almost one and half year of experience, responsible for the progress of internal projects and integrations and new features at Vide Vince.

I am a fast learner and passionate Developer, a very studious person and always aiming to give the best of myself to have issues solved. I am always seeking to improve my skills and have the ones who are a reference in the Programming world as an inspiration to me.

Ruby Experience: Advanced knowledge with Rails framework, performing maintenance and development of new features for our Sales platform and administrative system.

Elixir Experience: I worked 1 year with this language with Phoenix Framework, and im love it.

Skills: Backgrounds Jobs, Asynchronous Processing and Redis for queues and Sidekiq for Ruby.

Experience with Semaphore CI, Amazon Web Service - EC2, Elastic Beanstalk, Amazon SQS and RDS.

Database: PostgreSQL, MySql, MongoDB and SQL Server databases.

Tests: TDD, RSPEC, Unit Test to write codes with highest possible quality.

FrontEnd: HTML, CSS, JS(Basic).

Advanced English

Extra courses: Bootcamp OneBitCode, The complete Elixir and phoenix bootcamp(Stephen Grider).

Github: https://github.com/Sudok
